Electricity Fits Your Case!

If you suffer from Rheumatism, Neuralgia, Lumbago or Sciatica, don't endure another hour of ceaseless, excruciating agony.

The very worst cases, even those which have run on for years, yield at once to the powerful electric current generated by

Dr. Sanden's Electric Belt.

Right now—TO-DAY—stop taking those nauseous drugs and worthless medicines which can do you no good, and give electricity a trial. You shall not be disappointed. No doctor is needed; the cost is trifling; the treatment does not interfere with either comfort or work, and, best of all, you will experience relief and gain a permanent cure.

DR. SANDEN'S ELECTRIC BELTS have cured thousands of others during the past 30 years. Why not you? REMEMBER—These Belts cure at once Rheumatism, Lumbago, Sciatica, Kidney Complaints, Lame Back, Etc. Electric Suspensory for men free with all Belts.

None can possibly term an idea of the wonderful currents produced by these body batteries without examining. My illustrated book "Health in Nature" will be sent free, sealed, by mail upon application to inventor and manufacturer.

DR. A. T. SANDEN, Cor. Market and Grant Ave., San Francisco, Cal. Office Hours, 9 to 6. Sunday, 11 to 1.

KONA AND KAU RAILROAD

FILE INCORPORATION PAPERS

Headquarters in Honolulu—Company Agree to Make Annual Financial Reports to Territorial Treasurer.

The Kona and Kau Railroad Company, Limited, have filed incorporation papers with the Territorial Treasurer. The capital stock of the proposed railway company is fixed at \$50,000; the limit of subsequent extension is placed at \$10,000,000. The liability of stockholders is limited to the amount of their stock. Ten per cent of the proposed capital stock has already been paid in. Proof is filed that three-fourths of the shares have been subscribed for. The incorporators are Jacob Coerper, John Humburg, George Rodiek, Cristel Bolte and Charles T. Wilder.

The business headquarters of the company will be located in Honolulu. In their application for a charter the company set forth their desire to construct, maintain and operate railway lines in the district of North Kona, South Kona and Kau. The motive power to be steam, electricity, or any other the company may choose.

The corporation officers and not more than four persons to be elected each year by the stockholders of the corporation shall constitute the Board of Directors, which shall have control of the business of the company, subject to the direction by the stockholders at any regularly convened meeting of the company. The company binds itself to make annual reports of its financial affairs to the Treasurer of the Territory.

The right to deal in lands along the route; to build and operate pumping plants; to construct and operate hotels is also prayed for. The company proposes to deal in the shares of other incorporations.

BAND NOTES.

Musicians Were Busy Yesterday and Play This Evening.

The Territorial band under the leadership of Captain Berger were kept pretty busy yesterday in playing tune-ful alohas to departing passengers bound for the coast as well as at various island points.

The musicians serenaded the departing of the Peking from the Pacific mail wharf at noon. They also rendered several popular airs previous to the leaving of the steamer Hall later in the afternoon.

Tonight a concert will be given at Thomas Square at which an entertaining program will be given.

Aloha For Phoenix Friends.

From the Arizona Republican, Phoenix, Ariz.

It was a part of Judge A. S. Humphreys' plan to come to Phoenix, and having visited Florence, his last home in Arizona, he set out for Phoenix. He is in ill-health and having got as far as Tempe he was afraid to continue his journey in this direction. He desired Mr. Franklin to convey his regards to his old Phoenix friends, and his regret at not being able to see them face to face. He is a sick looking man and has aged and weakened greatly within the last six years. The nature of his disease has made the removal of one of his kidneys necessary. He is naturally gratified at the professional and financial success he has attained in the Sandwich Islands. Speaking of the political troubles in the islands in which he is involved, he said he was surprised on reaching San Francisco to learn that they had been made so much of. The whole matter, he said, was a factional or personal dispute, and was not seriously regarded even at Honolulu.

Every Automobile to Make Its Own Electricity.

From the New York Journal.

Paris—S. North, a Paris scientist, has taken out a patent for an invention which he says will supplant petroleum as a motive power and make stopping to take on a supply of electricity unnecessary for automobiles.

It is an automatic generator of electricity that takes up very little space and makes electricity as the automobile speeds on its way. The small quantity of water required for generating the electricity can be carried in a bottle.

Merit in Kodak Work

When customers send films from California to us for developing and printing there must be more than ordinary merit in the class of work we turn out. They claim that they cannot get the same excellent results in San Francisco, and are willing to send 2000 miles and be sure of having good Kodak pictures. That's why we get the business—merit.

We turn out uniformly good work. Every roll of film receives the best treatment that skill and experience can give it.

Our Photographic Department is full of work, but we are able to turn out work when promised, and no order is slighted.

Our popular prices will save many a dollar for the amateur—that's another reason for you to bring us your work.

Remember we are headquarters for Kodaks, fresh films, plates, printing papers—everything in the photographic line.

Let us have your next roll and we will demonstrate our claims for excellent and careful photo work.
